

Highway Emergency Response Specialist Course

Course Duration: 5 DAYS
Price: \$1,590 USD

- **HER08-01 Jan 28 - Feb 1 2008**
- **HER08-02 Mar 10-14 2008**
- **HER08-03 Apr 7-11 2008**
- **HER08-04 July 7-11 2008**
- **HER08-05 Oct 27-31 2008**
- **HER08-06 Nov 10-14 2008**

This 40-hour advanced course focuses on emergency response techniques to cargo tanks, intermodal tank containers and dry vans transporting hazardous materials. The duration of this course is 5 days, 40 hours, including 20 hours of field exercises. The bus will depart each morning from the Pueblo Marriott at 6:45 am sharp! The course concludes on Friday at 4:00 p.m.

Design and construction of MC 306, 307, 312, 331, 338 and the 400 series cargo tanks are covered as well as intermodal tanks.

Students will practice various transfer methods including drilling and transferring an overturned MC 306, intermodal tank container transfer and drum-to-drum transfers. Upon completion of the course, the student will receive a certificate of completion from the Emergency Response Training Center of the Hazmat Services department of the Transportation Technology Center, Inc.

Prerequisites:

We recommend applicants have prior hazmat technician-level training or experience in the incident command system, decontamination procedures, personal protective equipment, and standard safe operating procedures.

Course Schedule:

Monday

Introduction to Cargo Tanks

Tuesday

IM Tanks / Non Bulk / Bulk Containers
Cargo Tank Damage Assessment
